

Noel, Dustin, Jesse, Pranesh, Justin, Dongyu, Nick

Front End

- Rough Draft GUI Layout
- Animations
- Screen Mockups

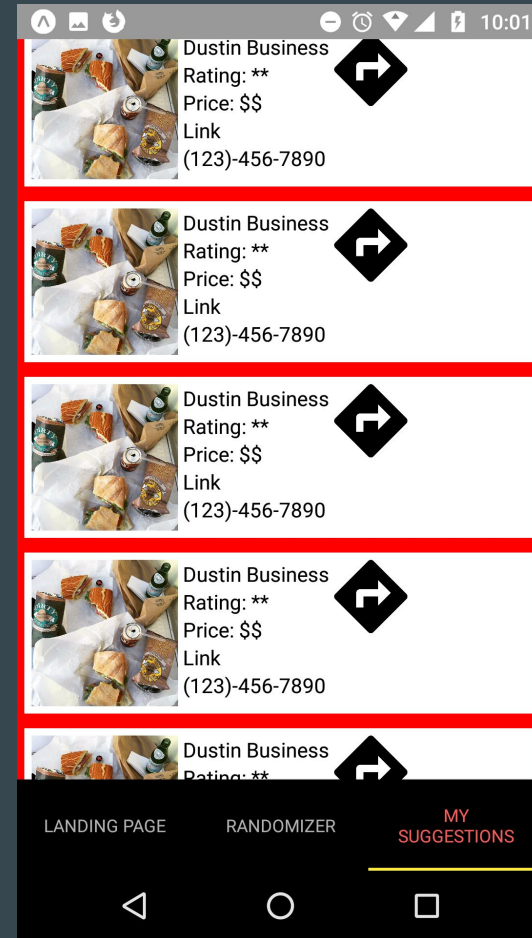

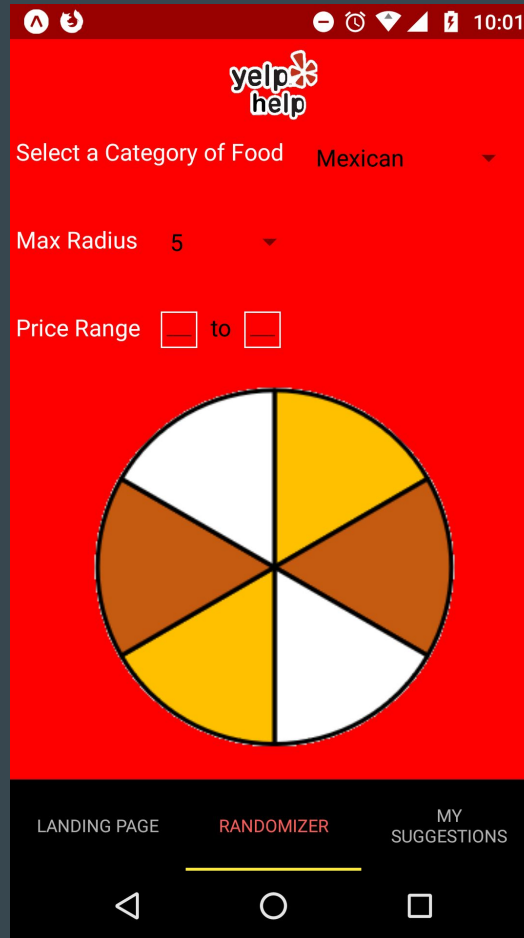

Back End

- GPS Locator
- Yelp API call
- Robust API search call

What's next Front End

- Binding Variables to Elements
- Making Result Pages
- Saving Date
- Driving directions
- (not likely possible) improve color scheme/UI elements

What's Next for Back End

- Connect received JSON objects to the front end
- Get another API call from Google maps to get the review from users if time permitting

Demo
